Confidential High Six Figure Settlement for Client Struck on Electric Scooter

Attorney **Keith R. Hedrick** and Attorney **Scott C. Murray** recently settled an electric scooter vs. motor vehicle collision claim for a confidential high six-figure settlement on behalf of a client who was seriously injured. The crash occurred when our client, who was legally riding his electric scooter on the sidewalk, attempted to proceed through an intersection on a "walk" signal. At the same time, a commercial truck driver attempted to make a right turn, through the same intersection, on a red traffic control signal. Unfortunately, the driver of the commercial vehicle never looked to see if any pedestrians were attempting to cross the intersection, through the crosswalk. There was nothing that our client could do and he crashed into the side of the commercial vehicle.

Immediately following the incident, the commercial driver exited his vehicle, moved our client's scooter out of the roadway

and onto the sidewalk, and informed our client that he had to continue working – **fleeing the scene**. Following the failure of conservative treatment and injection therapy, his pain persisted, and he ultimately required **surgery to his neck**.

Despite fleeing the scene, and the lack of any Florida Crash Report, our firm tracked down and identified the at-fault company and driver. Thanks to the dedication and teamwork of Attorney Hedrick and Attorney Murray, our client obtained a life-changing recovery so that he can finally begin to put this matter behind him and move on from this traumatic incident. ■

Client in Course & Scope of Employment Struck - \$345,000 Personal Injury Recovery

After picking up the red 4Runner from a rental car company in West Palm Beach, the tortfeasor / negligent driver violated our client's right-of-way and made a u-turn into our client's vehicle, which caused it to hit a curbed median and **roll over onto its roof**.

Our client, who was on the way to a work meeting on behalf of his employer, was in the **course and scope of employment** at the time of the incident. He suffered neck pain, headaches, and low back pain forcing him to treat with multiple doctors, both through Workers Compensation and outside – all of whom said his injuries were related to the crash.

Therefore, not only did our client have a **claim for personal injuries** against the auto insurance company for the driver of 4Runner, but he also had the **right to pursue a Worker's Compensation claim** for medical expenses and lost wages through his employer's compensation carrier all arising out of the same event.

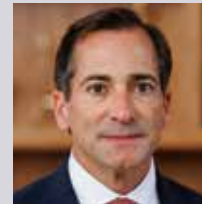

From the outset, the insurance company for the negligent driver did not accept liability for its insured which forced this law firm to file a lawsuit against the driver. Fortunately, we diligently investigated the crash by obtaining the investigating officer's **Body Worn Camera video which showed that the negligent driver admitted that she did not know how the crash occurred**.

Despite the denial, through discovery and depositions we established that the negligent driver was not properly paying attention, had no basis to claim our client did anything wrong, and likely was on her cell phone based upon the subpoenaed records for her phone company.

With the mounting evidence against the insurance company's client, **Law Partners Jason J. Guari & Scott B. Perry** resolved the personal injury side of the case for **\$345,000** at a court ordered mediation, which is required in every filed case. Our client's Workers Compensation claim is not included in the above settlement.

It is important to understand that if you are involved in a car crash while in the course and scope of employment, you may have multiple options of recovery for your injuries and damages, including liability claim against the other driver, Uninsured/Underinsured Motorist Claim, and/or a Workers Compensation Claim. It is important to retain counsel who understand how all of the avenues of recovery work together. ■
